## PROJECTS

### Fleet Visibility Tool [NFI]

**Fleet Visibility Tool** is a transportation domain web application. It is essentially responsible for managing the trucks and trucks details like current locations, fuel, order, trips, breadcrumbs, drivers and customers etc. NFI users get the truck/trailer related all things through these tools. Three modules (Tractor, Trailer and Customer alerting) are currently presented in the applications. Skills- React.js, Typescript, C#, .Net Core 6, Web API, Visual Studio 2019, MS Azure, Microservice, Mariadb, MongoDB, ADFS, GIT, Openshift, RabbitMQ, Peoplenet, Omnitracs

### Global Travel Portal [Tokio Marine HCC]

**Global Travel Portal** is an insurance domain web application. It is essentially responsible for selling single and Annual multi trip travel insurance plans for domestic and international countries. In this application I have worked on the Traveller detail page, Premium Page, user details, Verisk Medical Assessment integration, Payment Page(Braintree Payment Gateway Integration) and Payment Receipt Page( COI ). Skills:- Typescript, C#, .Net Core 2.2, Web API, Visual Studio 2019, MS Azure, SQL Server 2019, CSLA, JQuery, GIT, DevOps, Servicenow, Vrisk, Braintree Payment Gateway
